

## A Drawing of the 5 Stratigraphic Units That Can Be Seen From the Ft. Niobrara Overlook

Draw what you see when you look across the river from the overlook. Your drawing must include all 5 stratigraphic units. Each unit must be labeled with 4 things: 1) its name, 2) a number, 1-5, indicating relative age (1 = formed first, 5 = formed last), 3) a brief description of the unit, and 4) how it formed.
